

## Topic – Industrial Revolution

Imagine you are a time traveller. You have begun your life in 1750 and travelled in time to 1900.

Can you spot the differences in your local area?

Now describe the differences in sight, sound, smell etc. This could be in a diary entry, an explanation text or in the form of a letter to a friend. Can you use your knowledge of the Industrial Revolution to explain why these changes have happened?

Try to answer whether this is a good or bad thing for Britain.
