contact the local health protection team. This team will
also contact schools directly if they become aware that
someone who has tested positive for coronavirus (COVID-
19) attended the school – as identified by NHS Test and
Trace.
The health protection team will carry out a rapid risk
assessment to confirm who has been in close contact with
the person during the period that they were infectious,
and ensure they are asked to self-isolate.
The health protection team will work with schools to guide
them through the actions they need to take. Based on the
advice from the health protection team, schools must send
home those people who have been in close contact with
the person who has tested positive, advising them to self-
isolate for 14 days since they were last in close contact
with that person when they were infectious.

			As part of the national testing trace programme, if other cases are detected within the cohort or in the wider setting, Public Health England (PHE) local health protection teams will conduct a rapid investigation and will advise schools and other settings on the most appropriate action to take. In some cases, a larger number of other children, young people may be asked to self-isolate at home as a precautionary measure, perhaps the whole class. Where settings are observing guidance on infection prevention and control, which will reduce the risk of transmission, closure of the whole setting will generally not be necessary.	ł	Headteacher	1st September	Done

Unrestrictive access could increase risk of infection	Staff, pupils, visitors & contractors	Major	§ Staggered start and finish times, attendance times etc. will be in place to limit numbers of children and adults arriving and leaving at the same time. This will be organised by the school to work in the best way for the school and their community.	ŀ	Headteacher	1st September	Done	Moderate

			Where possible have separate access and exit points into the building for different groups of pupils and staff as close as possible to their designated classroom and work areas. Rooms and work areas should be accessed directly from outside wherever possible.	F	Headteacher	1st September	Done	

§ Where possible at drop-off and pickup times to avoid contamination, doors should be kept open or only opened and closed by the member of staff responsible for that area. Door handles should be regularly cleaned and sanitised to prevent infection. Safeguarding and health and safety must be assessed to see if this is appropriate especially for younger children and pupils with SEND needs and fire procedures will need to be altered to ensure those doors are closed should the fire alarm sound. The use of automatic 'doorguard' systems may be appropriate.		Headteacher	1st September	Done	
Visitors on site should be only if absolutely necessary, e.g. safeguarding or medical reasons. Specialists, therapists and support for SEND pupils should provide interventions virtually where possible. If not then they should minimise contact and adhere to all protective measures. Any visitors necessary to deliver the curriculum/provide cover, eg sports coaches, music specialists, supply teachers must adhere to the protective measures and ensure they maintain 2m distance from all adults and from pupils at the front of the class. All other risk reduction measures should be used, eg use of outdoors, ventilation, no singing, etc in line with guidance. Peripatetic music teachers delivering singing, brass or woodwind will not take place in school, but any instruments that do not involve blowing of air are allowed in small groups in a well ventilated area with social distancing.		Headteacher	1st September	Done	
§ Parents and carers should be advised not to congregate on the school grounds or outside the school gates and to observe social distancing. Parents will be limited in coming onto the school grounds where possible and only for necessary routes to drop off/pick up. If required to come onto the grounds this will be for the shortest possible time. The gates will be manned by staff to ensure adherence. Areas outside drop-off and pickup points will be marked with 2m distance markers to help.		Headteacher	1st September	Done	
§ Parents and carers should be advised that only one adult should accompany their child to and from school. If a sibling needs to accompany for childcare reasons the parent must accept responsibility for their adherence to all health and safety measures put in place.		Headteacher	1st September	Done	
Where schools have pupils attending more than one educational site eg alternative provision, the school should work collectively with the other provider to ensure risks are identified and minimised and all protective measures followed.	Not applicable	Headteacher	1st September		

			Parents and carers should be informed they should not come into the school buildings unless by prior arrangement. Communication with school staff will be by phone, email or the virtual platform relevant to the individual school. If a parent needs to drop something off/pick something up at school it must be by appointment and all health and safety measures will be adhered to, including the screen remaining closed and only one person in the school reception area. Staff should bring own food into school in labelled washable box. This will be stored in locker/staff cupboards. If anything is required to be placed in the fridge this must be in a labelled washable box. Staffroom use will be discouraged, although staff will still receive appropriate breaks. Staff are advised to bring in own flask, tea bags, etc. and to wipe down the kettle, microwave, etc. if they choose to use them. Staff are asked to take home their eating utensils each night to wash, but if they are washed in school they must be washed only by the person who has used them.		Headteacher	1st September	Done

[i] Clinically Extremely Vulnerable People

Some adults and young people have health conditions that mean they are more likely to get very unwell and might have to go to hospital if they catch coronavirus (COVID-19). These people are described as being clinically extremely vulnerable and include those who:

Solid organ transplant recipients. People with specific cancers: people with cancer who are undergoing active chemotherapy people with lung cancer who are undergoing radical radiotherapy people with cancers of the blood or bone marrow such as leukaemia, lymphoma or myeloma who are at any stage of treatment people having immunotherapy or other continuing antibody treatments for cancer people having other targeted cancer treatments which

This guidance is for all adults and young people who are most likely to become very unwell if they catch coronavirus (COVID-19), wherever they live or usually spend their time. This could be:

- in their own home
- in a care home
- at school
- at a special school (for example a school for young people with special educational needs)
- at university

System of controls

This is the set of actions schools must take. They are grouped into 'prevention' and 'response to any infection' and are outlined in more detail in the sections below.

Prevention:

 minimise contact with individuals who are unwell by ensuring that those who have coronavirus (COVID-19) symptoms, or who have someone in their household who does, do not attend school

2) clean hands thoroughly more often than usual

 ensure good respiratory hygiene by promoting the 'catch it, bin it, kill it' approach
 introduce enhanced cleaning, including cleaning frequently touched surfaces often, using standard products such as detergents and bleach
 mimise contact between individuals and maintain social distancing wherever possible
 where necessary, wear appropriate personal protective equipment (PPE)

Numbers 1 to 4 must be in place in all schools, all the time. Number 5 must be properly considered and schools must put in place measures that

suit their particular circumstances. Number 6 applies in specific circumstances.

Response to any infection:

7) engage with the NHS Test and Trace process

 manage confirmed cases of coronavirus (COVID-19) amongst the school community
 contain any outbreak by following local health protection team advice Numbers 7 to 9 must be followed in every case where they are relevant.
