wearing facemasks. Any visitors necessary to deliver the			
curriculum/provide cover, eg sports coaches, music			
specialists, supply teachers must adhere to the protective			
measures and ensure they maintain 2m distance from all			
adults and from pupils at the front of the class. All other			
risk reduction measures should be used, eg use of

Lack of information when entering school could risk virus being introduced	Staff, visitors, pupils or contractors	Severe	§ Clear communication with parents and carers is essential from the school so they understand what systems are in place in school. All persons likely to come into the school grounds should be informed they must not attend if they are displaying any symptoms of coronavirus. Parents and carers must be repeatedly reminded that they must keep pupils at home who display any of the symptoms. Pupils who are isolating cannot enter the school site, even when accompanied by a parent to collect other pupils. They must also be reminded of the necessity to inform school immediately and to take their child to be tested at the earliest opportunity and inform school of the results. This may be by newsletters, letters, emails, signs and any other appropriate measures.	Headteacher	1st September	Done	Minor
			All staff to receive appropriate training including PPE fit training. Schools will update their home school agreement to ensure parents and families understand the expectations around their contribution to managing risk.	Headteacher Headteacher	1st September 1st September	Done Done

Staff are advised to inform Head Teacher if they are pregnant as soon as possible so that protective measures can be implemented.

[i] Clinically Extremely Vulnerable People (see Nov 4th Guidance for definition)

Some adults and young people have health conditions that mean they are more likely to get very unwell and might have to go to hospital if they catch coronavirus (COVID-19). These people are described as being clinically extremely vulnerable and include those who:

Solid organ transplant recipients. People with specific cancers: people with cancer who are undergoing active chemotherapy people with lung cancer who are undergoing radical radiotherapy people with cancers of the blood or bone marrow such as leukaemia, lymphoma or myeloma who are at any stage of treatment people having immunotherapy or other continuing antibody treatments for cancer people having other targeted cancer treatments which can affect the immune

This guidance is for all adults and young people who are most likely to become very unwell if they catch coronavirus (COVID-19), wherever they live or usually spend their time. This could be:

- in their own home
- in a care home
- at school
- at a special school (for example a school for young people with special educational needs)
- at university

System of controls

This is the set of actions schools must take. They are grouped into 'prevention' and 'response to any infection' and are outlined in more detail in the sections below.

Prevention

 minimise contact with individuals who are unwell by ensuring that those who have coronavirus (COVID-19) symptoms, or who have someone in their household who does, do not attend school

2) clean hands thoroughly more often than usual

3) ensure good respiratory hygiene by promoting the 'catch it, bin it, kill it' approach

4) introduce enhanced cleaning, including cleaning frequently touched surfaces often, using standard products such as detergents and bleach

 minimise contact between individuals and maintain social distancing wherever possible

6) where necessary, wear appropriate personal protective equipment (PPE)

Numbers 1 to 4 must be in place in all schools, all the time.

Number 5 must be properly considered and schools must put in place measures that suit their particular circumstances.

Number 6 applies in specific circumstances.

Response to any infection:

7) engage with the NHS Test and Trace process

8) manage confirmed cases of coronavirus (COVID-19) amongst the school community

9) contain any outbreak by following local health protection team advice

Numbers 7 to 9 must be followed in every case where they are relevant.
